Summary

Mr. Soda Bizimana has an MSc in Geo-Information, Environment, and Sustainable Development and holds a BSc degree in Geography (Urban and Regional Planning). He is passionate about Geo-information science, Environment, and Urban Planning. Currently, he is volunteering in Open Street Map Rwanda as GIS, Environment, and Urban Planning Specialist. He has worked as a GIS and Environmental Expert for five months at AFRISCES Ltd. He worked as a GIS officer in the One Stop Center department in the City of Kigali. He has been working as a GIS Expert at SHER CONSULT/ GROUP ARTELIA in a Water for Growth project. He has worked for almost one year with GISTECH CONSULTANTS LTD as a GIS technician in the Building Data Content to Upload on Google Maps project. He has four months working as a GIS professional at Forever Beijing technology Ltd in electrical geometric networks mapping and modeling projects. He has almost two years of practical experience in a professional internship as a GIS and Urban Planner at Rwanda Housing authority in a rural settlement geo-database collection and processing project. He has been working for three months as Enumerator in ESRI RWANDA in the WASAC customer inventory and water network mapping and modeling project.

KIGALI

Working with GISTECH CONSULTANTS LTD as a GIS technician in the project of Building a Data Content to Upload on Google Maps. We are digitizing all houses and roads of twenty sectors in Kigali city, joining on spatial data collected from the field to the geospatial data digitized. We update by assigning numbers on new houses and new roads constructed. Producing 2D and 3D maps using ArcMap, ArcCene and ArcGlobe. In brief, we are mapping and updating Street addressing in the purpose of uploading them on Google Maps
