Luc Wilson

Director of KPF Urban Interface at Kohn Pedersen Fox Adjunct Assistant Professor at Columbia GSAPP
New York, New York, United States

Summary

I am a director at Kohn Pedersen Fox and lead KPF Urban Interface (ui.kpf.com,) a think-tank focused on urban analytics and technology development. In that role I have developed a unique data-driven design methodology and applied it on the design of over 300 projects globally ranging from master plans to rezonings to supertall towers, with a focus on computational urban design.

My work and research has been published in both academic and popular publications from Architectural Science Review and the Economist to Wired and the New York Times and I was selected to as one of the Commercial Observer's "2016 Top Young Professionals: Top Architects, Engineers and Contractors."

I am currently an Adjunct Assistant Professor at Columbia GSAPP, where I teach courses focused on performance based design and urban data analytics. Previously I was an Adjunct Course Advisor in the Center for Data Science at NYU, teaching urban analytics as part of the Masters Capstone Project course and a Guest Critic at Cornell University teaching an architectural studio. I am a member of the Urban Design Forum and on the planning committee for the Municipal Arts Society.

Experience

KPF

12 years

Director
April 2019 - Present (5 years 3 months)
Greater New York City Area

Senior Associate Principal
2012 - Present (12 years)
Greater New York City Area

Columbia University Graduate School of Architecture, Planning & Preservation

Adjunct Assistant Professor
2012 - Present (12 years)
Greater New York City Area

I teach courses on urban data analytics and performance based design: X-Information Modeling and Algorithms & Urbanisms.

Cornell University College of Architecture, Art, and Planning

Studio Instructor
August 2017 - December 2017 (5 months)
Ithaca, New York Area

Co-taught "Beyond Manhattanism: Hyper Dense, Hyper Mixed-Use, Peformance Based Design" option studio.

NYU Center for Data Science

Course Instructor
August 2015 - December 2016 (1 year 5 months)
Greater New York City Area

Course instructor for the capstone course for masters of data science students.

Education

Columbia University Graduate School of Architecture, Planning & Preservation

Master of Architecture - MArch · (2008 - 2011)
